Course description: This rated 1A (easy) walk takes participants through the charming and historic city of Dunedin. From the waterfront start at Edgewater Park, walkers will stroll through shady streets filled with homes both quaint and majestic, by the historic Fenway Hotel, along the Hubbard Park trail, with its intracoastal views, and into Hammock Park, a natural sanctuary inhabited by various forms of wildlife and plant life. With a return on the Pinellas Trail (a rails to trails treasure), the trek finishes with a visit to downtown Dunedin, with its many shops full of treasures and restaurants for almost every taste.

One thing that will delight are the MANY orange murals that you will spot in the most unusual places! Since 2009, Steve Spathelf and fellow resident Marsha Goins have secretly painted oranges about the town.

Along with Dunedin's rich Scottish connections, the town has a history of oranges, orange groves and citrus packing. When the oranges were packed, beautifully designed labels were made to go on each side of the fruit crates. After the walk visit the Dunedin Historical Museum to see some of these beautiful vintage labels as well as the many other city artifacts. Hours are subject to change; call (727) 736-1176 for the latest information.
