How to Use Lebanon Hill Trail Maps

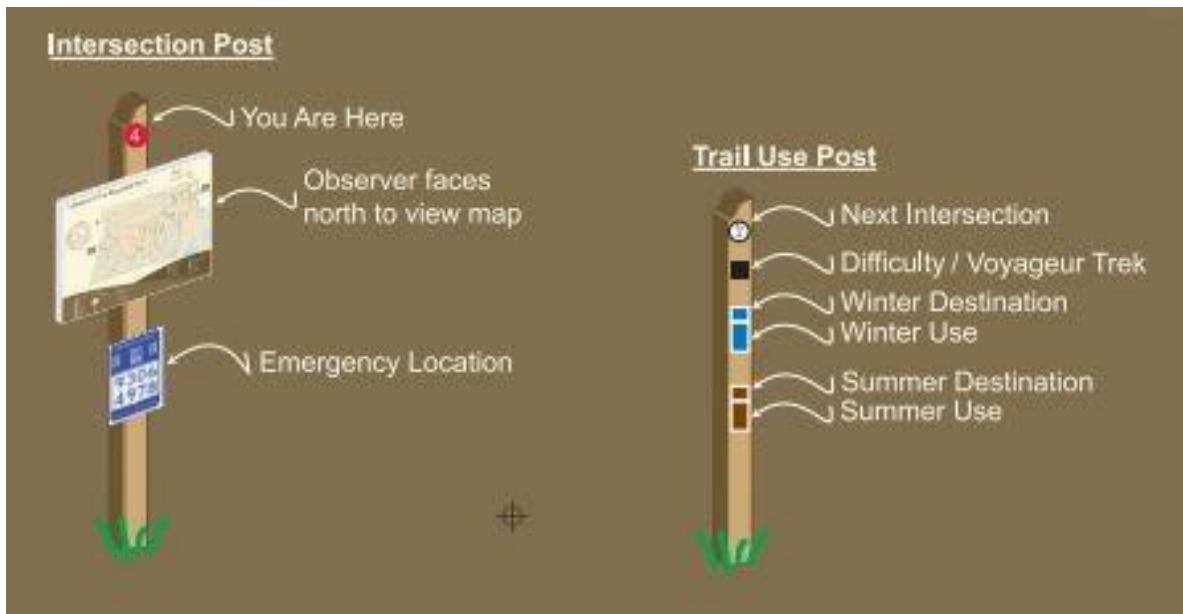

Below (or to the left) of each map in the left column is the name of the trail, approximate time to complete, and the distance in miles and kilometers.

The columns to the right (or below) list the trail numbers in succession that you follow to complete the loop.

All routes start from the Visitor Center on trail #50. When you reach an intersection, look for the trail marker indicating the number of the next trail section to follow. Whenever you see an intersection post with a map you will be facing north to view the map. The blue and white signs on intersection posts are Emergency Location Markers (ELMs) that provide Global Positioning System (GPS) compatible locations to help emergency responders find you. In case of emergency, call 911 and provide the ELM information on the nearest trail marker.

You may also track your location in the park with your smartphone using the free Avenza PDF Maps App.
