## Las Vegas High Rollers and Strollers Year-round Bike Event Y1398

**GENERAL INSTRUCTIONS:** The River Mountain Loop Trail is sanctioned as an Extended Distance Bike YRE ranging from 10K to 55K. The trail is 12-ft wide asphalt the entire distance. There are no turn-by-turn directions needed. You choose where you start and how much distance you want to bike observing the mile markers along trail (every half mile). Difficulty varies by elevation change on chosen start and end points. Trail rating up to 3A. Note that minimum distance required for IVV stamp is 10K. A quick conversion chart for mile markers to KM is at bottom of map on page 1 for your convenience. Round recorded distance to whole kilometers only, no fractions.

**You may bike in either direction out and back for your desired distance.** *For example*, if you start at trailhead #6 (mm 30.5), ride west to trailhead #5 (mm 0) and return the credit distance is 13K.

**You may also bike one way if you have ability to pre-stage a vehicle or arrange pickup at end of desired distance.** *An example* would be starting at trailhead # 6 (mm 31) and riding to trailhead # 1 (mm 24) for credit distance of 11K. This particular section descends 1300 feet to Lake Mead making for an easy one-way ride downhill. Of course, if you are really ambitious you can bike the whole loop trail for 55K!

The following pages list the major trailheads from the official RMLT website.

### PRECAUTIONS:
